EDUCATION

- **Dr. B. R. Ambedkar National Institute Of Technology** Jalandhar, India
Bachelor of Technology - Information Technology; GPA: 8.32 December 2021 - July 2025
- **St. Mary's Sr. Sec. School** Haridwar, India
Class 12; CBSE; Percentage: 97.4 April 2020 - July 2021

EXPERIENCE

- **Data Analyst Intern - NoQs Digital Pvt. Ltd.** Remote
(Full-Time) May 2023 - Present
 - Improved business decision-making by utilizing statistical methods to analyze data and generate reports.
 - Implemented new data analysis techniques, including the use of automated tools and statistical models, to streamline business processes and reduce costs.
- **Contributor - GirlScript Summer of Code** Remote
(Full time) May 2023 - Present
 - Active contributor to GirlScript Summer of Code, collaborating on real-world projects with a diverse team, showcasing strong coding skills, problem-solving abilities, and delivering high-quality code contributions.
- **Web Development Intern - Parivahan Sampda** Remote
(Full-Time) Feb 2023 - May 2023
 - Contributed to the development of a responsive and interactive web app used by journalists and the automobile industry.
 - Utilized modern frontend frameworks and libraries to implement the project, collaborating effectively with the development team to understand and deliver the requirements.

PROJECTS

- **YogaMaster - AI Yoga Trainer** 
Tech Stack : Python, Tensorflow, Keras, ReactJS March 2023
 - : A realtime AI-based Yoga Trainer, available 24/7, detects and evaluates yoga poses in real-time, providing accurate monitoring of one's practice.
 - : Used the Tensorflow pretrained Movenet model that predicts the coordinates of different body parts and estimates if the pose is correct.
- **HelpRight - Web Application** 
Tech Stack : HTML, CSS, Bootstrap, JavaScript, ReactJS, Django, Firebase Team Project - Jan 2023
 - : Developed a user-friendly web application to connect volunteers, NGOs, and individuals in need through a post section, facilitating quick and effective communication.
 - : Created an interactive web platform for social collaboration, utilizing modern development tools and techniques to provide an easy-to-use interface.
- **ComboCrypt - Blockchain-and-Cryptography-Combination** 
Tech Stack : Python, Ethereum, Dec 2022
 - : Developed and implemented a novel combination of blockchain technology and cryptography to enhance security and privacy in a project repository.

SKILLS SUMMARY

- **Languages:** C++(Expert), Python(Expert), Rust, C, JavaScript, SQL, HTML, CSS, Java, Go Lang
- **Frameworks and Libraries:** ReactJS, NodeJS, TensorFlow, Keras, Streamlit,
- **Tools and Platforms:** Git, Firebase, Latex, MySQL, Linux, Jupyter Notebook, Google Colab, Pelican, Sphinx
- **Soft Skills:** Leadership, Team Work, Writing, Public Speaking, Time Management

HONORS AND AWARDS/ ACHIEVEMENTS

- **Google TalentSprint Women Engineers Program Scholar** Remote
Trainee (Full-time) May 2022 - Present
 - Selected as one of the top **250** scholars out of **35,000+** applicants for a two-year professional development program by TalentSprint, supported by Google, with 100 % Fee Scholarship and Cash Scholarship.
 - Attended technical and corporate sessions, including coding practices, tools exploration, project work, DSA, Machine Learning, bootcamps, and 1:1 monthly workshops with **Google** as part of a mentorship program.
- **3 * Coder at Codechef:** Achieved highest rating 1634.
- **LPUNEST Study Grant Awardee:** Achieved AIR 12 and got rewarded with a handsome cash scholarship.

VOLUNTEER EXPERIENCE

- **Founder - TecHER** Remote
Improving access to technology gadgets and opportunities for girls in underserved communities. April 2022 - Present
- **Codess.Cafe - Member** Remote
Getting resources and interview sessions, mentorship in DSA and other tech domains. April 2022 - Present
- **National Service Scheme (NSS)** Jalandhar, India
Involved in various voluntary community service. December 2021 - Present
